The School of Arts & Sciences Extended Day Program (EDP) exists to support families by providing an affordable, safe, nurturing learning environment for their children during out-of-school time. We have created a program with a foundation grounded on strengthening and developing social skills to facilitate the positive growth of young people. We believe that children thrive and grow into healthy responsible individuals when given an environment to explore rich in rewarding experiences and loving relationships with both adults and peers. To accomplish this mission, we work cooperatively with the school staff, parents, and young people. We are the bridge between home and school.
